On behalf of Body Solutions Rx by Body Evolution LLC, we would like to thank you for ordering our new Oral HCG Weight Loss Program. We have been offering an “injectable” HCG for a very long time, but have always felt that a homeopathic alternative was warranted. The formula for the HCG that we are using is totally homeopathic and is totally safe to use. Your body will take what is needed and discard everything else. The Simeons Protocol is followed as usual. The only difference is that you are dosing with an Oral HCG instead of an injectable.

Homeopathy is a formal system of therapeutic drugs and a philosophy of health recognized by the Food and Drug Administration. It traces its roots to a single man, Dr. Samuel Hahneman, who, approximately 180 years ago realized that the body could heal itself through the administration of minute doses of appropriate constituents. Homeopathy is the medicine of choice in many countries around the world. Today, it is fetching increasing interest from Americans looking for more gentle and natural therapeutic means. The theory of Homeopathy is very similar to that of vaccination whereby, through minute dosing, a message is sent to the body initiating it to perform beneficial tasks.
